CONSUMERS STUDIED

Interruptions are unwelcome.

Pop-ups and autoplay video with sound were among the least preferred formats in desktop and mobile web research.

OUR SOLUTION

Ads worth exploring.

An ad invites people into a Wiskers-hosted interactive experience.

WHAT WE PLAN TO PROVE

Build. Launch. Prove.

Two applications. Distinct evidence. A shared production engine.

	01 Readiness	02 First evidence	03 Repeatability
CLIENT CAMPAIGNS	Delivery-ready experience	Initial paid campaigns	Quality, economics & repeat demand
BAGEL	Product readiness	Initial reader cohort	Return use & reader value

Readiness: a reviewed experience, clear delivery scope and an agreed measurement plan.

Success measures to agree · client campaigns and Bagel have separate evidence tracks.

THE RAISE · 18-MONTH PLAN

£125k to build, launch and prove.

18 months of planned runway

£50k Two founders' salaries across 18 months

£75k Engine development · Campaign delivery Growth · Operating costs

MONTHS 0–3

Build and prepare

Develop the engine, reusable Wiskers and interaction mapping. Prepare the first client campaigns.

MONTHS 4–8

Launch and learn

Run initial paid campaigns, learn from delivery and improve the experiences.

MONTHS 9–12

Build evidence

Improve repeatability, develop client demand and Bagel. Prepare for the next funding round.

MONTHS 12–18

Raise and grow

Pursue the next round and develop the strongest opportunities based on the evidence.

FUNDRAISING — Prepare & start conversations → pursue next round

Investor conversations begin before runway ends · milestones and runway to validate.
